CLOUD ENGINEER | CLOUD PLATFORM SUPPORT | INFRASTRUCTURE & AUTOMATION

PROFESSIONAL SUMMARY

Cloud Engineer with 3.9 years of experience supporting enterprise cloud platforms and infrastructure across AWS, Azure, and GCP. Experienced in infrastructure provisioning, troubleshooting, monitoring, Terraform, CI/CD, cloud security, compliance, disaster recovery, and migrations. Skilled in vendor coordination, SOP development, technical documentation, and L2 team training.

CORE COMPETENCIES

Cloud Operations • Infrastructure Troubleshooting • AWS / Azure / GCP • Terraform • CI/CD • IAM & CSPM • Compliance • Incident Response • Disaster Recovery • Cloud Migration • Vendor Management • SOPs & L2 Training

PROFESSIONAL EXPERIENCE

Careernet Technologies Ltd | Cloud Engineer | Jan 2026 – Mar 2026

Project: Merck AIA Modern

- Supported cloud platform availability, infrastructure incidents, troubleshooting, and operational documentation.
- Created and maintained Terraform module and deployment documentation to support consistent platform delivery.

Tata Consultancy Services (TCS) | Cloud Engineer | Hyderabad | Jan 2022 – Jul 2025

Project: Cloud Center of Excellence – Corporate IT

- Designed, built, and deployed AWS and GCP infrastructure from scratch; supported Azure environments, provisioning, monitoring, troubleshooting, and operations.
- Worked directly with cloud vendors to diagnose and resolve complex AWS file-share and platform-level issues.
- Created and maintained SOPs and technical documentation for cloud services to standardize operations and improve resolution consistency.
- Trained and mentored L2 support teams and junior engineers on cloud services, troubleshooting, and operational best practices.
- Implemented IAM controls, CSPM remediation, and custom compliance policies aligned with enterprise security and governance requirements.
- Troubleshot CI/CD and infrastructure changes using Jenkins, Git, YAML, and Terraform for controlled, repeatable deployments.
- Supported cloud migration and disaster recovery initiatives for resilient infrastructure and recovery procedures.
- Supported 300+ applications across AWS, Azure, and GCP, and directly hosted and maintained 50+ applications and their cloud infrastructure.

TECHNICAL SKILLS

Cloud Platforms: AWS, Microsoft Azure, Google Cloud Platform (GCP)
Infrastructure as Code: Terraform 1.x, modules, state, variables, outputs, HCL, ARM Templates
AWS Services: VPC, Security Groups, EC2, Auto Scaling, S3, FSx, EFS, Load Balancers, Lambda, CloudTrail, CloudWatch
DevOps & CI/CD: Git, GitHub, Jenkins, YAML pipelines, CI/CD workflows, version control
Security & Compliance: IAM, CSPM, custom policy creation, cloud security best practices
Automation & Systems: PowerShell, Bash, Python, Linux commands
Containers & Leadership: Docker, Kubernetes (basic), SOP creation, L2 training, vendor management, technical guidance

CERTIFICATIONS & EDUCATION

AWS Certified SysOps Administrator | AZ-104: Microsoft Azure Administrator | Google Associate Cloud Engineer (ACE)
Bachelor of Technology, Aditya College of Engineering and Technology | 2017–2021
